E. The reason and justification for the alteration or change in the object:

The Issue Related Expenses paid by the Company after the Initial Public Offer ("IPO") was less from the expected amount of Issue Related Expenses at the time of Prospectus dated 09th November, 2024 and the Company has been listed on SME Emerge Platform of National Stock Exchange of India Limited with effect from 29th November, 2024 and therefore, the remaining unutilised amount need to be transfer to other objects as mentioned in the Prospectus dated 09th November, 2024.

G. The risk factors pertaining to the new objects and estimated financial impact of the proposed alteration on the earnings and cash flow of the Company:

The Management proposes to use the unutilised proceeds for funding the working capital requirements which will ease the additional burden on finance plans and internal accruals of the Company. This strategic adjustment underscores the Company's commitment to effective financial utilization as it navigates its evolving operational landscape. Further, considering unforeseen economic, market, business or any other conditions beyond the control of the Management, there is no assurance that deployment of funds toward working capital will be profitable and will help in business growth and expansion of the Company.
